

# ARIES INSTITUTE OF MARINE TECHNOLOGY

February 1, 2018

## TO WHOEVER IT MAY CONCERN

During the four years I have known Captain Jose A. Bonanno Umpierre as his Technical Advisor at the Aries Institute of Marine Technology, Naval Architecture PGD program, I have witnessed him display exceptional organizational ability and have had an opportunity to evaluate his academic performance and knowledge of the subject matter. He is an outstanding student in all aspects.

I can, without any reservation, state that during the past 30 years that I have taught more than 1000 Naval Architects all over the world, I have never seen such a systematic student, as well as individual. That at his age too. He should serve as an example to the younger generations.

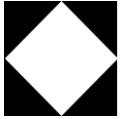

I am confident that Captain Jose's attitude and skills would make him a valuable contributor to any organization. Please do not hesitate to contact me with regards to any additional questions that you might have.

Sincerely;

Dr.-Ing.PYARILAL.S.K  
Technical Advisor

Aries Institute of Marine Technology

To Whom It May Concern:

I have known Mr. Jose Bonanno Umpierre for more than 22 years. I have come to know him, both as a friend and as a colleague, working together in the design of countless projects; me as the Architect and Jose as the Engineer Consultant, in charge of the Mechanical Designs, the Air Conditioning and Plumbing.

During all this time, Jose has demonstrated all the qualities of a great friend; honesty, caring, consideration, thoughtfulness and kindness. These are innate qualities that Jose possesses.

As an engineer, Jose is the consummate professional; he is knowledgeable, responsible and very detailed and meticulous in his designs. I trust him completely and count on his guidance to resolve the many complex situations normally encountered in construction projects.

I can unequivocally recommend Jose Bonanno in whatever endeavor he decides to undertake.

Most Sincerely,

Evelio Pina
